

T1 Internet Access

Get lightning quick Internet with 99.999% uptime and 24x7 expedited support at a price you can't afford to pass up.

Does your business require reliable high-speed Internet access with dedicated Internet connectivity? Has your Internet Service Provider told you that you are "too far away" to receive true broadband data speeds? At TelePacific, we won't say no to your Internet access needs. We'll say yes to dedicated T1 service—and give it to you for a great price, too.

Dedicated Internet Access (DIA)

TelePacific's DIA gives you 1.544 Mbps throughput across a rock solid connection that's always on! This digital pipeline rockets your data to its destination securely and reliably via the fastest route possible.

DIA allows for guaranteed bandwidth for all those large files that you'd like to send and gives you broadband access to the Internet as well as any intranet and extranet sites. This cost-effective service also boasts 24x7 live support with world class customer care and continuous network monitoring.

T1 DIA	Included
Cost per Month*	\$399
Included at No Charge	8 IP addresses (Need more? No problem) Domain name hosting and registration 1 domain name 128 email addresses Managed router Configuration and maintenance by TelePacific
